

Learn Excel: Executive Summary & Scope (Paperback)

By Ronald Mba Pmp Goulden

Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New.

Language: English. Brand new Book. This is the second book in the "Build-A-Tool" series of books for learning Microsoft(R) Excel while creating fully functional Project Management tools (which, with a little ingenuity, can be applied to other fields of study). The process of this book will start with blank worksheets and develop them into sophisticated Project Management tools called the "Executive Summary" and "Scope" documents. There are three bonus tools included in this module: "The Cover Sheet," the "Charter", and the "Cost Baseline." Together, these five documents provide the foundation for the Prospectus package to be presented to executive management for project approval. Do not be alarmed if you are not a Project Manager, these tools can be used in other realms, limited only by your imagination. At the very least, this exercise will illustrate the capabilities of Excel and teach some valuable techniques in the process. There is no need to learn Visual Basic for Applications (VBA) or macro programming; everything is accomplished with readily available Excel functions. The book assumes the reader knows little or nothing about Excel and progressively elaborates upon each exercise and technique, building knowledge...
